Specifications—EZ Fold DGW-E

Wall-Mounted, Side-Folding, Electrically-Operated Backstop

Product Description

Basketball backstop shall be the EZ FOLD Model DGW-E, wall-mounted side-folding backstop by Draper, Inc. of Spiceland, IN.

Extension frame shall be constructed of (4) 2½" (6.35 cm) 13-gauge and 2¼" (5.715 cm) 14-gauge steel tubes terminating in fabricated steel hinge plates. Hinges shall be offset type to allow backstops to fold against the wall. The frame shall be attached to the wall and the bank with eight pivot assemblies, and shall be supported in the playing position by two ¼" (6.35 mm) welded-link chains with turnbuckles for leveling. Backstop shall fold gate-style on the hinge assemblies, left to right or right to left toward the wall. Frame shall be adjustable for a plus or minus 6" (15.24 cm) variation of distance from face of bank to wall.

Frames shall be further braced by horizontal 1½" (3.81 cm) OD 11-gauge tubes terminating in precision die-formed clamps. Frames shall have a black or white powder coat finish. Other colors optionally available. Contact Draper for details.

Operation: Direction of fold may be determined at time of installation by placement of the offset hinge brackets. Backstop shall be folded in and out of playing position by means of a telescoping, electrically operated linear actuator, running diagonally from precision die-formed clamps on the backstop frame to a wall-mounted pivot assembly. Electrically operated 110-120-volt single-phase linear actuator provides smooth reversible motion for loads up to 600 lbs. Available with standard key switch, EZ Power wireless remote or EZ Stick power wand operation.

Backstop shall be provided with 2 x 8 (5.08 cm x 20.32 cm) southern yellow pine wall pads at wall attachment points. All edges shall be chamfered and pads shall be finished with high gloss polyurethane.

Options

Backstop can be provided with any of several different styles of backboards, goals and padding. Specify types desired. See separate sheets.

Accessories

Height Adjusters (for complete specifications, see separate sheets):

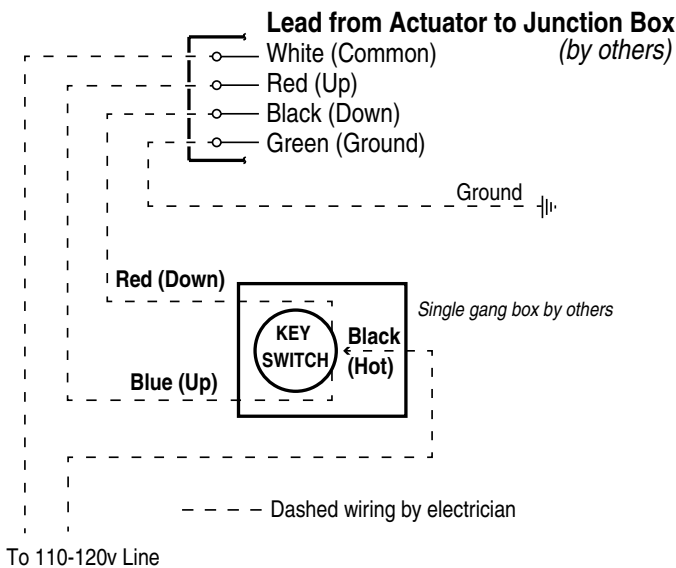

- 503093**— For motorized 8'-10' (244 cm-305 cm) height adjustment of rectangular bank.
- 503097**— For motorized 8'-10' (244 cm-305 cm) height adjustment of fan bank.
- 503095**— For motorized 8'-10' (244 cm-305 cm) height adjustment of rectangular bank with wireless remote control.
- 503098**— For motorized 8'-10' (244 cm-305 cm) height adjustment of fan bank with wireless remote control.
- 503096**— For motorized 8'-10' (244 cm-305 cm) height adjustment of rectangular bank with EZ Stick Power Wand.
- 503099**— For motorized 8'-10' (244 cm-305 cm) height adjustment of fan bank with EZ Stick Power Wand.
- 503092**— For manual 8'-10' (244 cm-305 cm) height adjustment of rectangular backboards.
- 503094**— For manual 8'-10' (244 cm-305 cm) height adjustment of fan backboards.
