

KS-3—Three Position Key Switch *(Maintained)*

USES:	<ul style="list-style-type: none"> The KS-3 replaces the standard single-station control switch for all products (screens, shades or projector lifts) where the directional functions (Up and Down) need to be combined with the security of a key switch. It is not intended for use with any other control.
COMPATIBILITY*:	<ul style="list-style-type: none"> The KS-3 is intended as the sole control station, and cannot be used as a multiple station control. It can, however, be used with the KS-1 power supply key switch, although having two key switches is redundant. It is not intended for use with any other control.
CONTACTS:	<ul style="list-style-type: none"> Two cam-operated Single-Pole, Single-Throw contact blocks (On-Off), wired to emulate Single-Pole, Double-Throw, Center Off (On-Off-On). Maintained action.
RATING:	<ul style="list-style-type: none"> 600 Volts, UL recognized, CSA recognized.
DESCRIPTION:	<ul style="list-style-type: none"> 3-position key operator. Cover plate is stainless steel. Four 6" wire leads: black, black, red and blue (2 commons, down and up). 2¾" x 4½" cover plate fits a single-gang box.
PART NUMBER:	<ul style="list-style-type: none"> 121018
