

SP-KSM—3-Position Key Switch *(Momentary)*

USES:	<ul style="list-style-type: none"> The SP-KSM replaces the standard 3-position key switch (KS-3) where a momentary (spring-loaded) action is required. It combines the directional functions (Up and Down) with the security of a key switch. It can be used as a single- or multiple-station control.
COMPATIBILITY*:	<ul style="list-style-type: none"> SP-KSM can be used in multiples, for either high- or low-voltage systems. LVC-IV (low voltage module) can be triggered by SP-KSM (stop does not work). LVC-S (low voltage switch) can be used in conjunction with SP-KSM. Three wire motor with Built-in Low Voltage Controller (stop does not work). KS-1 Power Supply Key Switch.
CONTACTS:	<ul style="list-style-type: none"> Two cam-operated Single-Pole, Single-Throw contact blocks (On-Off), wired to emulate Single-Pole, Double-Throw, Center Off (On-Off-On). Momentary action.
RATING:	<ul style="list-style-type: none"> 600 Volts, UL recognized, CSA recognized.
DESCRIPTION:	<ul style="list-style-type: none"> 3-position key operator, momentary action. Cover plate is stainless steel. Four 6" wire leads: black, black, red and blue (2 commons, down and up). 2¾" x 4½" cover plate fits a single-gang box.
PART NUMBER:	<ul style="list-style-type: none"> 121022
